

REACH Compliance

MSEL, trading as Whale Pumps, supply only assembled products, do not supply any articles as defined by REACH, and do not use any chemicals of 'Very High Concern' within any of our products or processes.

We are designated as a downstream user under REACH, and maintain an internal register for the few chemicals that are used within our manufacturing process, none of which exceed one tonne per annum.

Our contact person for REACH is:

Nigel Keenan
Munster Simms Engineering Ltd.
2 Enterprise Road
Bangor
Co. Down
