

Integrated Management System Policy

Within the scope of our Integrated Management System; “Whale is engaged in the business of the design, development, manufacture, marketing, sale, and delivery of pumps, water systems, and water and space heaters, for the RV, Marine, Domestic Shower Drainage and other niche markets.” We at Whale recognise that providing our customers with a quality service whilst minimising our impacts on the environment and ensuring the safety of our staff are critical to our business. We are committed to providing the necessary resources to ensure we continuously improve our business practices within these core areas.

To achieve this, we have developed and will maintain an Integrated Management System that will meet the requirements of the current versions of ISO9001, ISO14001 & ISO45001.

This ‘Integrated Management System Policy Statement’ calls for continual improvement within our management activities and business will be conducted according to the following principles:

We will:

- Ensure Top Management are accountable for making best use of our management resources in all Quality, Environmental and Health, Safety & Welfare matters to continually improve our Integrated Management System and its effectiveness in delivering our overall strategic organisational objectives;
- Comply with all applicable environmental & safety laws, statutory regulations and stakeholder requirements;
- Ensure our products comply with requirements of the Gas Safety Regulations;
- Ensure the Integrated Management System is reviewed regularly by top management to ensure it is appropriate to the nature and scale of our service provision, environmental impacts and health & safety risks;
- Regularly set, review and communicate our ‘Integrated Management System Objectives’ and performance against defined objectives throughout the organisation and to interested parties where appropriate;

- Work closely with our stakeholders, customers and suppliers to establish the highest quality standards;
- Endeavour to continually improve our environmental performance by committing to protect the environment, preventing pollution, minimising the use of natural resources and reduce the impact of our operations on the local environment;
- Remain committed to provide safe and healthy working conditions that eliminate, prevent and reduce health, safety and welfare related risks, injury and ill-health to ensure that activities are safe for employees, associates, sub-contractors and others who come into contact with our workplace. These risks will be assessed and updated regularly;
- Adopt a forward-looking view on future business decisions which may have impacts on our ability to provide customers with a quality service, minimise environmental impacts and compromise the safety & welfare of our direct and indirect employees;
- Train our staff in the requirements of the Integrated Management System and their responsibility in maintaining and improving it.
- Involve the Health and Safety committee and other staff in the promotion of a positive health and safety culture by consultation and participation in occupational health and safety issues:
- Ensure workers are protected from reprisals when reporting incidents, hazards, risks and opportunities.
- Ensure this policy is available to the interested parties and where appropriate, actively communicate it to all direct employees, indirect employees and other interested parties, whilst regularly reviewing it to ensure it continues to meet our requirements.
